QUALITIES LOUNGEWEAR

95% VISCOSE | 5% ELASTANE / 230 GSM

Almost every season we use the fabric composition jersey viscose. The blend of viscose and elastane is the perfect balance between being washable and easy care, a soft smooth finish which feels lovely against your skin and you also have the comfort of wearing a stretch fabric. The fabric is comfortable and lovely to wear as the fabric does not sweat and is a breathable.

85% VISCOSE | 15% ELASTANE / 280 GSM

This is our new Premium Quality viscose blend. Same as our bestseller viscose elastane quality but heavier and tightly knitted which makes it even more comfortable to wear; provides freedom of movement and a high quality outlook. Furthermore it keeps the same characteristics as our regular viscose quality, so a breathable fabric which is easy in care with a soft smooth finish but with even more stretch.

95% COTTON | 5% ELASTANE

Cotton is a natural material that absorbs a lot of moisture and is comfy to wear. Combined with elastane to make the fabric more elastic and to bring the items back in shape.

48% VISCOSE | 48% POLYESTER | 4% ELASTANE

Polyviscose fabric is a blend of viscose and polyester. Blending polyester with viscose gives the best of both worlds and is best described as a semi-natural or semisynthetic fibre. By blending viscose and polyester to make a new fabric quality, poly-viscose largely retains the pleasant drape and feel of standard viscose, so its touch is quite natural to handle. But the added polyester means polyviscose is much easier to care for. Combined with elastane to make the fabric more elastic and to bring the items back into shape.

100% COTTON - 2X2 RIB

Cotton is a natural material that absorbs a lot of moisture and is comfortable to wear in summer as it will keep you cool due it's breathable structure. For our Summer collection we knitted the cotton fibres into a rib knit. Rib knit is a different way of knitting that creates the appearance of raised vertical lines in the fabric. The main advantage of this fabric is the high degree of elasticity. The fabrics are more elastic and durable than other jersey knits and tend to fit the body. One other advantage is that is doesn't wrinkle. The elasticity of the structure allows the fabric to get back to it's original shape easily.

100% COTTON - MUSLIN FABRIC

For our new Collection we developed a new quality ideal for summer; printed 100% cotton muslin fabric. Muslin is a type of cotton fabric which is known for its lightweight and soft texture. Its pure touch feeling and soft and light structure have made it one of the most popular products for years. To make it extra comfortable we used a double layer fabric. It is composed of loosely twisted fine threads, which cause a natural crinkled finish. This fabric is perfect for our summer collection as it is breathable and easy to wear, but convenient for all seasons. This fabric, which can be easily machine washed, becomes softer as it is washed. You may not even need to use any fabric softener. Also muslin fabric, which has a quick-drying feature, provides a very practical use. The fabric is most known to be used in hydrophilic cloths.

80% COTTON | 20% POLYESTER

Terry is a fabric woven with many protruding loops of thread which can absorb large amounts of water. Which makes it an ideal fabric, especially for our loungewear collection, with its highly absorbent structure. These loops are often longer on one side since they were created to have the greatest possible absorbency.

SUSTAINABILITY

Pip Studio does not own any factories, we work together with our carefully selected partners. We believe that the manufacturing of our products should be done in a responsible way. We aim to create collections with well-thought-out solutions that bring a sparkle to everyday life. Our partners' philosophy is to build a trustworthy and long-term relationship with our suppliers in order to ensure continuity of the quality, look and delivery of our collections. All Pip Studio products are produced in a sustainable way and marked with the Pip Studio sustainable icon in the carelabel.

WASH CARE INSTRUCTIONS

To enjoy your Pip Studio products till the end of times, please follow the recommended care instructions of the care label on each garment carefully.
